

Date: 16<sup>th</sup> March 2020

**NOTICE: COVID 19 & PREVENTION**

Dear students, parents and caretakers,

As the pool vendor and aquatic service provider, Torpedo places top priority in protecting our students and parents especially children in patronizing our pool locations and attending our swimming classes.

Torpedo will be monitoring the virus outbreak situation closely and update all parents accordingly. We will also be working with our Clubs and pool management officials to:

- Conduct temperature and pre-lesson checks on our teachers and staff's health condition.
- With effect from 16<sup>th</sup> March 2020 onwards: Teachers, Coaches and staffs who has travel history abroad will have to serve a 14 days stay home notice before they can resume work duties.
- Ensuring teachers or staffs visit a doctor if not feeling well and is refrain from teaching/ working until medical clearance from a doctor is received.
- Avoid physical contact and group interaction activities involving touching or holding hands.
- Pool water disinfectant level is at its optimum at all times.
- Sanitize all swim equipment and toys before and after swim classes.
- We will provide replacement classes for swimmers with medical certificate.
- Students identified having persistent cough, signs of flu or fever will be refrained from joining the class.

Please be reminded and take note of the below suggested pointers when attending our swim classes:

1. In response to the COVID-19 situation in Singapore, we encourage all students/ participants, parents and caretakers who have returned from Mainland China, Republic of Korea, Japan, Switzerland, UK, France, Germany, Italy, Iran, Spain (or any subsequent country, province, city, county announced by MOH) within the last 14 days to comply with quarantine order/stay-home notice and monitor your health.
2. If you have mild flu-like symptoms like cough, runny nose, sore throat, fever, please see a doctor and stay at home. You can check out [www.phpc.gov.sg](http://www.phpc.gov.sg) for the listing of Public Health Preparedness Clinics for subsidised treatments.
3. Report to the pool earlier than usual for Temperature checks at various Clubs/ Pools locations and comply to declare any travel history upon arrival to Clubs/ Pool's reception.
4. Observe personal hygiene by washing hands frequently with soap, monitoring your temperature twice daily, and avoid touching your face with your hands.
5. Exercise personal hygiene and social responsibility- Students are encouraged to stay healthy while observing good personal hygiene and socially responsible practices. They may take reference from SG Clean. During this time. Let's join efforts to overcome the challenges arising from COVID-19 and work together to keep our families, fellow students, friends and each other safe.

**Together, we can beat the Covid-19 and continue to lead a healthy and fit lifestyle!**

For latest updates, please refer to MOH website at [www.moh.gov.sg](http://www.moh.gov.sg)
